► PROJECT REFERENCES (EXTRACT)

- | | |
|-------------------------------------|--|
| May 2018 to March 2019 | <p>Draft, implementation and support of the worldwide rollout of a uniform project management methodology in the area of business services with a globally active pharmaceutical manufacturer</p> |
| October 2017 to April 2018 | <p>Evaluation of an organisational unit's organisational and cultural need for integration regarding digitisation with a leading automobile manufacturer</p> <p>The evaluation was successfully completed with concept proposal for the organisational unit's organisational development. The group decided to carry out the proposal by itself.</p> |
| August 2016 to January 2018 | <p>Lead of a comprehensive reorganisation with a public corporation</p> <p>The reorganisation concerned the organisation's division of production with approximately 500 employees and targeted the strengthening of the organisation's flexibility and efficiency. The task comprised both the project lead as well as the necessary change management activity's draft and implementation. The project was completed successfully, even economically.</p> |
| June 2017 until today | <p>Training and product documentation within the scope of the implementation of a uniform sales platform with an international telecommunications provider</p> <p>The originally created product documentation, compiled by various and comprehensive documents, was directed at the end user and trainer of the telecommunications provider and its partner agencies. Additionally, a training concept was issued and numerous end user trainings as well as train-the-trainer trainings were conducted. As the uniform sales platform is currently still being extended, the documentation is regularly updated and trainings are conducted when necessary.</p> |
| August 2015 to November 2015 | <p>Business process analysis and optimisation for the preparation and implementation of a new IT solution in the area of telesales with an international telecommunications provider</p> <p>After an analysis of the existing structure and process organisation in the provider's and its partner agencies' telesales and customer winback divisions, the target organisation with respective process optimisation was established during workshops and documented with roles and authorisations. As well, use cases and IT requirements were elaborated and documented for the IT solution's test phase.</p> |

**May 2015 to
November 2015**

Change management support of an international CRM rollout with a medium-sized energy service provider

Change management trainings for managers were drafted and conducted in Germany, England and Spain. This happened with the goal to prepare the CRM implementation and raise awareness for the expected organisational alterations and the resulting need for qualification for managers and employees. Furthermore, a project pertaining newsletter has drafted and implemented.

October 2014 to June 2015

Draft and implementation of development programme for managers with a medium-sized, owner-managed telecom company

More specifically, the mission comprised the preparation of a general personnel development concept and a development programme for managers, the implementation of trainings for managers and coachings for team leaders, and the draft and preparation of individual personnel development plan for all managers.

August 2013 to July 2014

project and change management of the implementation of an IT service management in the scope of outsourcing the IT division of a Europe-wide active pharmaceutical wholesaler

Subject of the mission was the draft and implementation support of an ITIL suited IT support organisation (organisational structure and ITIL based processes for the area infrastructure, the draft and implementation of a organisational unit for IT service managers in the new company, as well as the planning, coordination and implementation of trainings for IT employees and end users). Further, change workshops (“brownbag-meetings”) and team development measures for the new teams were conducted.

Cologne, March 2019
